

## TEAM LEARNING ACTIVITIES

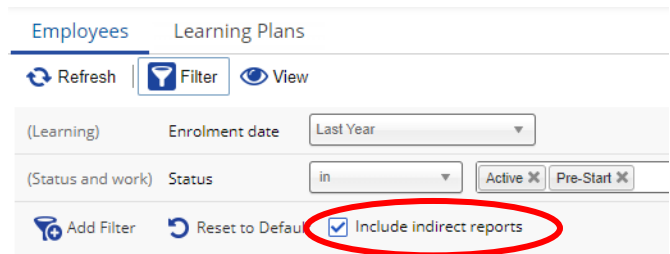

The Team Learning Activity area will provide an overview of where your direct and indirect team members are in the process of completion of their mandatory e-learning content within EV People.

Within your Team Lead, Manager or Divisional Lead role access in EV People, on the Home Page, navigate to the 'Team Learning Activity' icon.

This will take you to the 'Employee Progress Overview' screen, which shows you your direct reports progress against learning content they have enrolled in.

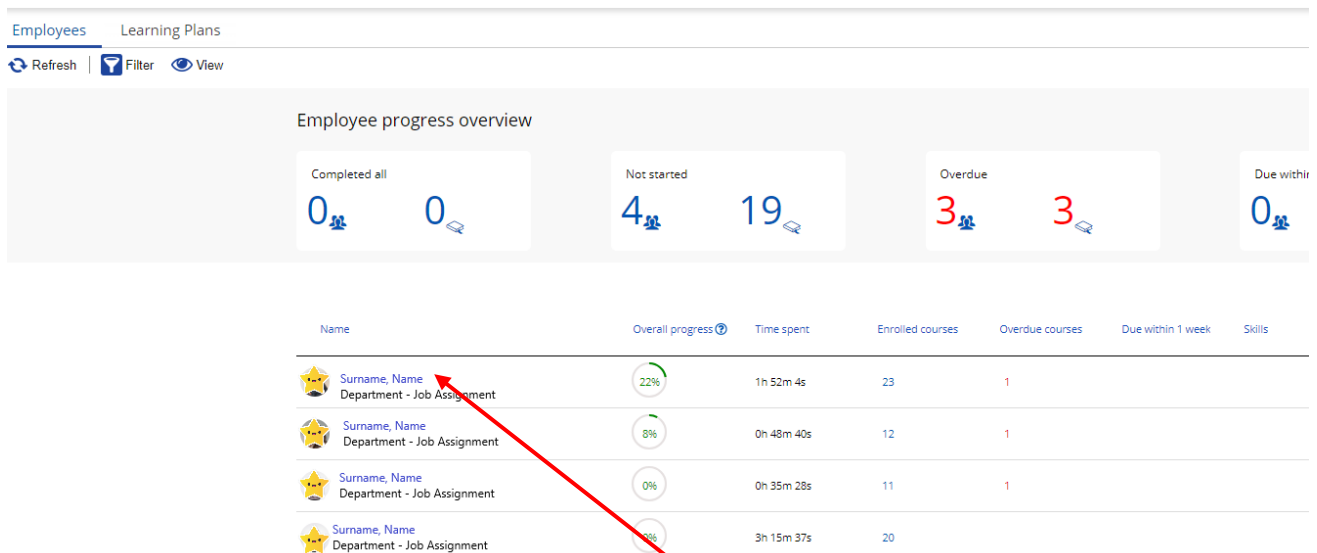

To include indirect reports, select 'Filter' and tick the box next to 'Include indirect reports'. If you have any colleague on parental based leave, include 'Inactive' in the 'Status' filter also.

You can select the progress overview buttons to show the following categories:

- Completed all (no outstanding courses)
- Not started
- Overdue
- Due within the next week
- In progress

Each category will show you the employee count where this status applies and the number of courses within the category.
