

We manage supply chains for the world's leading brands.

EV Cargo Sustainability Strategy

November 2021

L3 Harris

EV Cargo (formerly Allport Cargo Services) is one of the **UK's largest privately owned logistics businesses**, and our global forwarding arm was established in 1963:

Trading for 50 years, combining successful industry leaders across global forwarding, freight, 4PL, logistics, express and technology

Our highly engaged global team are committed to deliver our mission, vision and values, and our overall purpose

Our immediate sustainability focus includes reduction in Co2 emissions, single-use plastic and community led projects all forming part of our ESG (Environmental, Social & Governance) strategy

We work with the world's leading brands, those that are immediately recognised, and those that have a leading aspiration

We are a £1 Billion logistics business, structured for continued growth and expansion based on the building blocks of great people, great customers, operating systems and cutting-edge technology

Our business core underlying proposition is Technology-enabled Supply Chain® services, enabling us to unlock the value in the supply chain, helping our customers' drive their competitive advantage

Introduction to EV Cargo Global Forwarding

EV Cargo and L3 Harris
